PROFESSIONAL SUMMARY

Senior IT Systems Administrator with 10+ years of hands-on experience managing enterprise IT infrastructure including Windows Server, Active Directory, networking, and virtualization. Proven track record as a sole IT administrator overseeing end-to-end infrastructure operations - servers, networking, user management, and system security - to ensure absolute reliability and business continuity. Experienced in structured technical support environments utilizing ticketing systems, SLA-driven workflows, and real-time troubleshooting. Expanding expertise into Full-Stack Software Development (Python, React) and Cloud Engineering with Microsoft Azure and AWS.

TECHNICAL SKILLS

- **Operating Systems:** Windows Server 2012-2025, Active Directory, Linux Administration, Windows 10/11
- **Networking & Security:** DNS/DHCP, TCP/IP, LAN/WAN, VPN, VLANs, Omada SDN, TP-Link Enterprise, Firewalls
- **Virtualization & Cloud:** VMware, Hyper-V, Azure (AZ-900, AZ-104, AZ-305), AWS (Solutions Arch, SysOps)
- **IT Support & Admin:** Tier 1/Tier 2 Support, Ticketing, SLA Compliance, CRM, Hardware Troubleshooting
- **Software Dev & Scripting:** Python (FastAPI), React.js, PostgreSQL, SQL, PowerShell, Git Version Control
- **Infra & Disaster Recovery:** RAID, Backup Solutions, NTFS Security, AD DS, GPO, Bare Metal Restore, VSS

PROFESSIONAL EXPERIENCE

Osos Engineering Consulting | Remote & Tanta Branch, Egypt
IT Systems Administrator & Developer | Apr 2025 - Present

- Designed and deployed a complete Active Directory-based infrastructure for 16 employees.
- Deployed and administer Windows Server 2025 managing AD DS, DNS, centralized DHCP.
- Designed and implemented a resilient network topology via Omada SDN and TP-Link routers.
- Engineered a comprehensive 4-layer Disaster Recovery strategy with RAID1 and Bare Metal Backups.
- Developed full-stack enterprise web applications using Python (FastAPI), PostgreSQL, and React.
- Provisioned and managed Linux-based cloud infrastructure (DigitalOcean) to host custom PMS.
